## Business proposition summary

**Platform One** offers three services, each of which delivers a secure, high quality investment platform, with access to a wide range of products, funds and services. The UK service is available to authorised UK and offshore advisers requiring a platform for client assets held in the UK. The International service is offshore to the UK and provides a multi-currency, client agreed fee charging service with commissions rebated to the client. The Global service is offshore to the UK and offers a traditional commission service with no explicit adviser charges.
